Curriculum Facts

Our program follows the My Time Our Place Framework. This curriculum focuses on collaboration between children and educators to provide play and leisure opportunities that are meaningful to children and support their wellbeing, learning and development. Our environment pays close attention to the needs and interests of individual children. An emphasis is put on children having choice and control over their learning as they collaborate with friends and educators to extend their life skills and develop dispositions towards community participation.

Educators

The Nominated Supervisor is responsible for the overall implementation of the program at The Scots College OOSH. The Nominated Supervisor is also the first point of contact for parents/guardians to communicate with regarding the program and matters affecting their child/ren.

Educators are employed using a minimum ratio of 1:15 and all educators hold a Working with Children's Check. At least one educator on the premises will hold a current first aid certificate and child protection qualification. Our educators are all experienced in the provision of care and recreation activities for children. Educators role model positive social interactions and are energetic, empathetic, caring, fun and reliable. They challenge children's knowledge through scaffolding learning and creating a program which supports children's interest.
